

# Pfizer Oncology:

## Who We Are and What We Do

One way or another, cancer touches all of our lives. That is why nothing is more personal, or more urgent, than our goal to find cures for these deadly diseases.

### OUR IMPACT

**23** innovative cancer medicines and biosimilars, treating **30** types of cancer.

**11** FDA Breakthrough Therapy Designations since **2013**.

**up to 12** potential approvals expected before the end of **2025**.

### OUR SCIENCE

**130** ongoing clinical trials with a Pfizer oncology medicine.

**8,500+** active participants in ongoing Pfizer-sponsored oncology clinical trials.

#### Innovative Modalities to Drive Potential Future Therapies

##### Monoclonal Antibodies (mAbs)

Act like human antibodies in the immune system to target cancer cells.

##### Bispecifics

Bring cancer and immune cells together, causing an immune response that attacks the cancer.

##### Antibody-drug Conjugates (ADCs)

Deliver chemotherapy or a radioactive particle directly to cancer cells.

##### Cancer Vaccines

Introduce antigens that trigger an immune response.

##### Small Molecules

Pass through cell membranes to reach targets within cancer cells.

### OUR AREAS OF FOCUS

#### Breast Cancer

Revolutionizing standards of care across multiple subtypes and stages.

#### Genitourinary Cancer

Leveraging a 15-year legacy to advance treatment for pervasive and hard-to-treat cancers.

#### Colorectal Cancer

Targeting the aggressive biology of *BRAF* + metastatic colorectal cancer.

#### Blood Cancer

Changing the treatment landscape for rare, life-threatening cancers.

#### Lung Cancer

Advancing biomarker-driven therapies for the leading cause of cancer-related death.

#### Melanoma

Delivering a precision medicine for mutation-driven, advanced melanoma.

#### Biosimilars

Improving patient access to essential medicines.

We've made meaningful progress – but our work is far from finished. Millions of people are living with cancer, and millions more will receive a diagnosis in the future. They are the reason we will continue to work tirelessly to deliver on our purpose:

## BREAKTHROUGHS THAT CHANGE PATIENTS' LIVES.™
